CONTENTS

VOLUME 9, 1942

AGNEW, RALPH PALMER. Limits of integrals 10
AMBROSE, WARREN, HALMOS, PAUL R., AND KAKUTANI, SHIZUO. The decomposition of measures, II 43
AMBROSE, WARREN, AND KAKUTANI, SHIZUO. Structure and continuity of measurable flows 25
BECKENBACH, E. F. The analytic prolongation of a minimal surface 109
BELL, E. T. Parametric solutions of certain Diophantine equations 431
BERGMAN, STEFAN, AND SPENCER, D. C. A property of pseudo-conformal transformations in the neighborhood of boundary points 757
BIRKHOFF, GARRETT. Generalized arithmetic 283
BOAS, MARY L., BOAS, R. P., JR., AND LEVINSON, NORMAN. The growth of solutions of a differential equation 847
BOAS, R. P., JR., BOAS, MARY L., AND LEVINSON, NORMAN. The growth of solutions of a differential equation 847
BOAS, R. P., JR., AND PÓLYA, G. Influence of the signs of the derivatives of a function on its analytic character 406
BOAS, R. P., JR., AND SCHAEFFER, A. C. A theorem of Cartwright 879
BOCHNER, S. Completely monotone functions in partially ordered spaces .. 519
BROWN, ARTHUR B. Effective parameters 773
CARLITZ, L. The reciprocal of certain series 234
CARLITZ, L. The reciprocal of certain types of Hurwitz series 629
CHANG, SU-CHENG. The point of inflexion of a plane curve 823
CHANG, SU-CHENG. The singularity S_1^* of a plane curve 833
CHENG, MIN-TEH. The absolute convergence of Fourier series 803
COBLE, ARTHUR B. The double-N_n configuration 436
COBLE, ARTHUR B. A particular set of ten points in space 450
EACHUS, JOSEPH J. Classification of solutions and of pairs of solutions of $y''' + 2py' + p'y = 0$ by means of initial conditions 20
ERDÉLYI, A. The Fuchsian equation of second order with four singularities. 48
EVERETT, C. J. Affine geometry of vector spaces over rings 873
FELLER, WILLY. Some geometric inequalities 885
FRY, CLEOTA G., AND HUGHES, H. K. Asymptotic developments of certain integral functions 791
GILBARG, DAVID. The structure of the group of $\mathfrak{P}$-adic 1-units 262
GILBERT, PAUL W. n-to-one mappings of linear graphs 475
GOLDSTINE, H. H. The calculus of variations in abstract spaces 811
HALL, DICK WICK. A partial solution of a problem of J. R. Kline 893
HALMOS, PAUL R., AMBROSE, WARREN, AND KAKUTANI, SHIZUO. The decomposition of measures, II 43

450270

HARTMAN, PHILIP. The divergence of non-harmonic gap series..... 404
HARTMAN, PHILIP, AND WINTNER, AUREL. Additive functions and almost periodicity..... 112
HILL, J. D. Some properties of summability..... 373
HUGHES, H. K., AND FRY, CLEOTA G. Asymptotic developments of certain integral functions..... 791
JENNINGS, S. A. Central chains of ideals in an associative ring..... 341
JONES, BURTON W. Related genera of quadratic forms..... 723
KAKUTANI, SHIZUO, AMBROSE, WARREN, AND HALMOS, PAUL R. The decomposition of measures, II..... 43
KAKUTANI, SHIZUO, AND AMBROSE, WARREN. Structure and continuity of measurable flows..... 25
KAPLANSKY, IRVING. Maximal fields with valuations..... 303
LEIGHTON, WALTER, AND THRON, W. J. Continued fractions with complex elements..... 763
LEVINSON, NORMAN, BOAS, MARY L., AND BOAS, R. P., JR. The growth of solutions of a differential equation..... 847
LEVINSON, NORMAN, AND SMITH, OLIVER K. A general equation for relaxation oscillations..... 382
LOOMIS, L. H., AND WIDDER, D. V. The Poisson integral representation of functions which are positive and harmonic in a half-plane..... 643
MCCOY, NEAL H. Algebraic properties of certain matrices over a ring.... 322
MCFADDEN, LEONARD. Absolute Nörlund summability..... 168
MAC LANE, SAUNDERS, AND SCHILLING, O. F. G. A general Kummer theory for function fields..... 125
MANDELBROJT, S. Quasi-analyticity and properties of flatness of entire functions..... 647
MICKLE, EARL J. Associated double integral variation problems..... 208
MORREY, CHARLES B., JR. A correction to a previous paper..... 120
NEWELL, HOMER E. The asymptotic forms of the solutions of an ordinary linear matric differential equation in the complex domain..... 245
ORE, OYSTEIN. Theory of equivalence relations..... 573
OWENS, GLYNN. An explicit formula for the solution of the ultrahyperbolic equation in four independent variables..... 272
PAYDON, J. FINDLAY, AND WALL, H. S. The continued fraction as a sequence of linear transformations..... 360
PERLIS, SAM. Normal bases of cyclic fields of prime-power degree..... 507
PÓLYA, G., AND BOAS, R. P., JR. Influence of the signs of the derivatives of a function on its analytic character..... 406
PRAGER, W. Fundamental theorems of a new mathematical theory of plasticity..... 228
RADÓ, T., AND REICHELDERFER, P. Convergence in length and convergence in area..... 527

REICHELDERFER, P., AND RADÓ, T. Convergence in length and convergence in area 527
REYES, GEORGE E., AND SZÁSZ, OTTO. Some theorems on double trigonometric series 693
ROSSER, BARKLEY. A generalization of the Euclidean algorithm to several dimensions 59
SALEM, R., AND SPENCER, D. C. The influence of gaps on density of integers. 855
SANTALÓ, L. A. Integral formulas in Crofton's style on the sphere and some inequalities referring to spherical curves 707
SCHAEFFER, A. C., AND BOAS, R. P., JR. A theorem of Cartwright 879
SCHILLING, O. F. G., AND MAC LANE, SAUNDERS. A general Kummer theory for function fields 125
SCHOENBERG, I. J. Positive definite functions on spheres 96
SHERMAN, SEYMOUR. A comparison of linear measures in the plane 1
SMITH, OLIVER K., AND LEVINSON, NORMAN. A general equation for relaxation oscillations 382
SPENCER, D. C., AND BERGMAN, STEFAN. A property of pseudo-conformal transformations in the neighborhood of boundary points 757
SPENCER, D. C., AND SALEM, R. The influence of gaps on density of integers. 855
STONE, A. H., AND TUKEY, J. W. Generalized "sandwich" theorems 356
SZÁSZ, OTTO, AND REVES, GEORGE E. Some theorems on double trigonometric series 693
THRON, W. J., AND LEIGHTON, WALTER. Continued fractions with complex elements 763
TUKEY, J. W., AND STONE, A. H. Generalized "sandwich" theorems 356
VARMA, R. S. A self-reciprocal function 259
WAGNER, R. W. Differentials and analytic continuation in non-commutative algebras 677
WALL, H. S., AND PAYDON, J. FINDLAY. The continued fraction as a sequence of linear transformations 360
WALLACE, A. D. Monotone transformations 487
WANG, FU TRAING. The absolute Cesàro summability of trigonometrical series 567
WHAPLES, GEORGE. Non-analytic class field theory and Grunwald's theorem 455
WIDDER, D. V., AND LOOMIS, L. H. The Poisson integral representation of functions which are positive and harmonic in a half-plane 643
WINTNER, AUREL. The distribution of primes 425
WINTNER, AUREL, AND HARTMAN, PHILIP. Additive functions and almost periodicity 112
WISHARD, AUDREY. Functions of bounded type 663

450270
